

Concept:

This event is the first in a series of four workshops that will be organized by the [NCP4Missions](#), the Network of Missions' National Contact Points, targeting applicants and stakeholders active in the sectors covered by the five Eu Missions.

This first workshop aims to provide an overview of the Eu Missions while also discussing the applicants' experience in approaching them.

More in details, the workshop will analyse and discuss the characteristics of the Eu Missions compared to other parts of Horizon Europe. To this end, a round table with applicants that have successfully applied to Missions' calls as well as to calls funded by other parts of the Framework Programme will be organized to discuss similarities and differences they faced during proposal preparation.

Target groups: Horizon Europe applicants and stakeholders and Horizon Europe NCPs.

The Applicant approach towards Missions: Challenges, differences and peculiarities

Date: 06.12.2024

Time: 10.00-11.40 (CET)

On line: Teams
