I Convocatoria MSCA Cofund 2020 - ADAGIO¹**

The first call for the ADAGIO MSCA Cofund 2020 opens February 1st, 2022.

The online application will be open throughout the duration of the call. The submission process for CALL 1 will close on **March 31st, 2022 at 15:00 CET**.

ADAGIO Cofund

ADAGIO (Advanced Manufacturing Research Fellowship Programme in the Basque – New Aquitaine Region) is a cross-border Programme between the University of the Basque Country (UPV/EHU) and the University of Bordeaux (UBx) to enhance the research and innovation (R&I) capacity and high-quality human resources of the regions of New Aquitaine and Euskadi in the area of Advanced Manufacturing.

The programme invites **15 experienced researchers** to develop **3-years projects** in one of the following areas:

- **Advanced Materials And Processes Groups**
- **Intelligent, Flexible & Efficient Production Systems**
- **Digital And Connected Factory**
- **Energy Efficiency**
- **Sustainable Manufacturing**

Eligibility criteria

Researchers of any nationality can apply. Applicants must comply the following criteria:

- **Be an Experienced Researcher (ER) holding a Ph.D. degree at the date of the call deadline.**
- **Comply with the MSCA mobility rule: not have resided or carried out their main activity (work, studies, etc.) in the country of the recruiting institution (either France or Spain, as selected) for more than 12 months in the 3 years immediately prior to the date of the call deadline.**
- **Applicants cannot be permanent employees of any of the hosting organisations nor Partner Organisations.**
- **Applicants must be able to communicate fluently in English (written and spoken).**
- **The candidates must submit a complete application, including all required documentation before the established deadline (31st March 2022 at 15:00 CET).**
- **The candidates must submit their application using in the ADAGIO on-line platform.**

Proposal

All the requirements about the proposal are available in the following [link](#).

Boost you career
in the field
of Advanced
Manufacturing

Inter-sectoral and International Access to experiences through an European Project

Access to transferable skills training

15 postdoctoral positions

5 thematic areas:
• Advanced materials and processes
• Intelligent, flexible and efficient production systems
• Digital and connected factory
• Energy efficiency
• Sustainable manufacturing
