Esta jornada se encuentra dirigida a todos los investigadores e investigadoras de la **UGR** que estén interesados en conocer las MSCA Posdoctoral Fellowships. Este es el nuevo nombre que han adoptado las conocidas becas MSCA Individual Fellowships (MSCA-IF) en el nuevo Programa Marco de Investigación de I+D+i en la Unión Europea (2021-2027), Horizonte Europa.

Para aquellos interesados en preparar una propuesta, la oficina organizará **próximamente un Taller técnico de apoyo a la preparación de propuestas de MSCA Posdoctoral Fellowships.**

Desde la Oficina de Proyectos Internacionales, animamos a nuestros investigadores a participar en esta iniciativa, ya que es una **muy buena oportunidad** para mejorar el potencial creativo e innovador de los investigadores experimentados, ofreciéndoles la oportunidad de trabajar en investigación en Europa o fuera de Europa y para atraer investigadores de excelencia posdoctorales sin coste para la **UGR** a nuestros grupos de investigación.
