BDVA : Data Week 2021 - Online event of the European Big Data and Data Driven AI Space

- **Fecha:** 25 al 27 de mayo
- **Registro:** Puede realizarlo en el siguiente **enlace**
- **Info:** Puede consultar toda la información **aquí**

Info:

Data Week is the spring gathering of the European Big Data Value and Industrial AI research and innovation community. This year, Data Week will be held online from **25th to the 27th of May**. The event follows the tradition of the Big Data Value Summit, promoting opportunities, knowledge sharing and fostering ecosystem development.

The event will highlight Horizon Europe and Digital Europe Programme funding possibilities and gives visibility to a large number of European research and innovation initiatives and projects throughout the field. Join Data Week to discover all the latest opportunities and best partners for you!

The event is co-organised by **BDVA/DAIRO** and LINK: EUHubs4Data project -> <https://euhubs4data.eu/>. As Portugal is currently holding the EU presidency, the event collaborates with Portuguese BDVA/DAIRO members **Decsis**, **Ubiwhere** and **Valuedate.io** to strengthen the cooperation with the country's Big Data Value and

Industrial AI ecosystem.

Data week is held online and is free of charge.
