The **LINK: Athenea3i programme -> <https://athenea3i.ugr.es/>** has enabled the recruitment of 20 excellent researchers. All of them work under the supervision of researchers of recognized prestige at the **UGR**. On this occasion, we dedicate this Newsletter to these people: the Supervisors.

In this **Newsletter** you will find a first person experience of the supervisors, as well as the connection of their research lines with the Athenea3i projects. Moreover, it also includes the most relevant news and events of the Athenea3i programme of this last year.

We hope that this information will be of your interest.

We wish you a Merry Christmas and a happy new year.
