

## Survey on the 'Impact of Regulation on Innovation'

04/05/2016

### Actividades

It is a **high priority** for the **Commission** to ensure that the **conditions** are **right** for innovation in Europe. The Commission is seeking to **improve** the **regulatory framework** and adapt to the **pace** of change of **new technologies** and new forms of **innovation**.

**Deadline 9 May 2016.**

The **Evaluation Unit** of **DG Research and Innovation** has initiated a **survey** on the '**Impact of Regulation on Innovation**'. This survey will be managed by **external contractors** (Ernst & Young/Technopolis Group) on behalf of the **European Commission**.

It will **run** until **9 May 2016** and provide **stakeholders** with the opportunity to give **input** to the Commission in this important area.
