

# EPFLglobaLeaders

## Call for collaboration

Are you an organisation looking to contribute to the SDGs through collaboration with EPFL?

### About EPFLglobaLeaders

EPFLglobaLeaders is a new EPFL fellowship programme that will support **48 doctoral fellows** to become **leaders** in the transition towards **sustainable societies**, each with a thesis project addressing at least one of the Sustainable Development Goals (SDGs). The programme encourages **intersectoral collaborations** by mandating a **secondment in the non-academic sector**.

## WHAT WE OFFER

Secondment partners get access to EPFL's know-how, infrastructure, and extended networks and benefit from the expertise of a highly skilled EPFL doctoral researcher and his/her supervisor while working on a common, sustainability-related project.

---

## COLLABORATION DETAILS

-  This call for collaboration is open to organisations from the **private, public, and non-profit sectors**
  -  EPFL thesis supervisors and non-academic partners together define the most suitable **collaboration parameters**
  -  The collaboration includes a **secondment of 3 to 12 months** with the non-academic partner
  -  EPFLglobleaders fellows remain **employed as EPFL doctoral assistants** during the secondment phase
  -  A **financial contribution** from the non-academic partner is **welcome but not mandatory**; it can cover part of the salary, consumables, travel, etc.
  -  An **IP agreement** has to be established
- 

## INTERESTED IN AN EPFLglobleaders PROJECT?

We invite organisations to connect with potential supervisors/applicants by writing to us at [research@epfl.ch](mailto:research@epfl.ch) before **15 March 2021**.
